CURRENT LIST of MEDICAL LITERATURE

Vol. 8 April 27, 1945 No. 17

SUBJECT GROUPS ACCORDING TO JOURNALS

1. Anatomy; Histology
2. Anthropology; Ethnology
3. Archeology; Paleontology
4. Aviation Medicine
5. Bacteriology; Parasitology
6. Biology; Embryology
7. Bone; Joint; Extremities; Muscle
8. Cancerology
9. Cardiovascular System
10. Chemistry; Physics
11. Dentistry; Stomatology
12. Dermatology
13. Diagnosis; Clinical Methods
14. Dietetics; Foods; Nutrition
15. Digestive System
16. Endocrinology
17. Forensic Medicine; Toxicology
18. Genetics; Eugenics
19. Gynecology; Obstetrics
20. Hematology
21. History; Biography; Bibliography
22. Homeopathy; Osteopathy, etc.
23. Hospitals
24. Immunology; Serology
25. Industrial Hygiene; Sociology
26. Infectious Diseases; Epidemiology
27. Medicine
28. Metabolism
29. Military and Naval Medicine
30. Miscellaneous
31. Neurology; Psychiatry
32. Nursing
33. Ophthalmology
34. Otorhinolaryngology; Phoniatry
35. Pathology
36. Pediatrics; Child Welfare
37. Pharmacology; Pharmacy
38. Physiology
39. Psychology; Mental Hygiene
40. Public Health; Sanitation
41. Radiology; Phototherapy
42. Respiratory System
43. Surgery; Traumatology
44. Therapeutics
45. Tropical Medicine
46. Tuberculosis
47. Urology
48. Venereal Diseases; Sexology
49. Veterinary Medicine
50. Zoology

Privately published under the auspices of the

6. Biology; Embryology

C. rend. Soc. biol., 1943, 137: (Jan.)

VERNE, J., & BUSNEL, R. G. La co-existence melanine-riboflavine (vitamine B2) dans les amino-acidophores des Crustaces Brachyoures. 6.

BOIVIN, A. Virulence, structure antigenique et physiologie des bacteries. 7.

RAMON, G., AMOUREUX, G., & POCHON, J. De la production de la toxine tetanique a l'aide d'un milieu de culture a base de digestion pepsique et de digestion papainique de viande et de foie de cheval; utilisation des extrdts de malt comme source glucidique. 8.

BERNARD, P. N., & GALLUT, J. Sur un mode de preparation de la toxine cholerique. 10.

BERNARD, P. N., & GALLUT, J. Conditions favorables a la production de la toxine cholerique. 11.

THOMAS, J. A. Evolution nucleaire de l'oeuf d'oursin en segmentation, apres blocage de la mitose par la 4-oxy-4'-aminodiphenylsulfone (98 G) 12.

VIEUCHANGE, J., & LEVAUITI, J. C. Reactions cellulaires locales provoquees, chez le lapin, par l'injection intradermique de melanges de virus vaccinal et d'immunserum. 13.

ROCHER, H., & CHOUTEAU, J. Relation entre la quantite d'antigene et la vitesse de fixation de l'alexine dans la reaction de Bordet-Wassermann. 14-6.

PERAULT, R., & CHOUTEAU, J. Appreciation des proprietes bacteriostatiques des corps sulfamides par respirometrie. 16-8.

PASTEUR VALLERY-RADOT, MAURIC, G., & HOLTZER, A. Action du sulfate d'atropine sur le choc anaphylactique du lapin. 18.

CHAUCHARD, P., & MAZOUE, H. L'excitabilite musculaire dans les polynevrites experimentales. 19.

SANTENOISE, D., VALETTE, G., & STANKOFF, E. Action de la vagotonine sur l'insulinosecretion. 20.

GOUNELLE, H., BACHET, M., & SASSIER, R. Influence de l'orthostatisme sur le taux des protides du serum du sang. 22.

LAVOLLAY, J. Le vitamine P. 23.

GOTHIE, S., & MORICARD, R. Du poids de gonadotrophine serique necessaire a la production de la keratinisation vaginale chez des rates impuberes agees de 10 a 25 jours. 25.

GOTHIE, S., & MORICARD, R. Developpement folliculaire ou luteinisation ovarienne provoques par une meme dose de gonadotrophine serique chez des rates d'ages differents. 26.

FONTAINE, M., RAFFY, A., & COLLANGE, S. Teneur en vitamine B2 (riboflavine) de quelques Crustaces (Cirripedes et Isopodes) relations avec la biologie de l'espece consideree. 27-9.

NARVIER, P., RANGIER, M., & TRAVERSE, P. M. DE. Variations de la lacticemie au cours de l'hyperglycemie provoquee chez les nephretiques. 29.

LETARD, H. Methode de dosage de l'activite thromboplastique des liquides biologiques. 32.

BULLIARD, H., & DOS GHALI, J. Action du chlorhydrate d'yohimbine sur le rat blanc. 33. /Pharm./

CHAFFAZ, G. Test vaginal bio-chimique de l'hyper- ou de l'hypofolliculinemie chez la femme. 35.

POLONOVSKI, M. Influence de l'hypoxemie sur l'elimination urinaire des phosphates. 37.

THOMAS, J. A. Essais sur le mecanisme de l'action mitoclasique des sulfamides et des sulfones, chez l'oeuf d'oursin en segmentation; evolution de la sensibilite des larves au cours du developpement. 38.

NIGON, V. Le determinisme du sexe chez un nematode hermaphrodite (Rhabditis elegans Maupas) 40.

BOQUET, P. Action des serums antigangreneux et du serum antistaphylococcique sur la toxicite du venin de Vipera aspis. 41.

BOIVIN, A., CORRE, L., & LEHOULT, Y. Sur la degradation de la structure antigenique des colibacilles. 42.

RAYMOND-HAMET. Action intestinale de la convolamine. 44.

CHAUCHARD, B., CHAUCHARD, P., & RAFFY, A. Vitamine B2 et systeme nerveux. 45.

GUILLOT, M., & SAIAS, E. Sur les sterols du sang humain. 47.

ANCEL, P., & LALLEMAND, S. Action elective de la trypaflavine sur l'ebauche amniotique. 49.

GAVAUDAN, P., & GAVAUDAN, N. Action du benzene et de ses homologues sur la caryocinese et la cytodierese vegetales. 50.

RENAUD, J. Anomalies fixees de la division, chez une race de levure obtenue par irradiation. 51.

BIMES, C. Remarques sur l'involution gravidique du thymus chez le cobaye. 52.

COURRIER, R. Remarques sur l'action androgene de quelques steroides. 53-7.

HUREL-PY, G. De l'influence de l'acide indole-β-acetique sur la culture des prothalles d'Asplenium en milieu aseptique. 57.

CHAMORRO, A. L'action androgene preponderant de la pregneninolone avec les tests des Mammiferes. 58. /Corpus luteum, Hormone Synthetic Bivgent/

PIGOURY, L. Titrage, par floculation, des serums precipitant les proteines musculaires. 60.

_____. Floculation des macerations de viandes crues par les serums precipitants; zone de floculation et floculation initiale. 61.

MARCHAL, PATUREL /et al./ Influence des myxoproteines seriques de poules immunisees sur l'evolution de la leucemie aviaire. 62.

C. rend. Soc. biol., 1943, 137:

BOIVIN, A., & DELAUNAY, A. Sur certains des facteurs conditionnant la toxinogenese (neurotoxine) du bacille de Shiga. 67.

RENAUD, J. Caracteres morphologiques et biologiques de quelques races de levures obtenues par irradiation. 68-70.

PIGOURY, L. Floculation des macerations de viandes crues par les serums precipitants; vitesse de floculation. 70.

_____. Stabilite des proteines musculaires crues envisagees du point de vue des reactions de floculation. 71.

THOMAS, J. A. Sur l'exogastrulation et l'inhibition du developpement de la ciliature larvaire, chez l'oursin, sous l'influence d'un azoique sulfone (corps 95 G) 72.

RAYMOND-HAMET. Sur la bufotenidine, principe extremement actif du venin du crapaud commun. 74.

MEUNIER, P., & DELOR, J. Influence du sexe et de la carence en vitamine E sur la teneur en cetones steroides des organes du rat. 75.
LECOQ, R. L'huile de germe de ble est-elle tocique? 76.
PASTEUR VALLERY-RADOT, MAURIC, G. /et al./ Etude sur le systeme neuro-vegetatif au cours de l'hypothermie du lapin. 78.
JOLLY, J., & LIEURE, C. Sur le pouvoir de developpement de la plaque medullaire des batraciens isolee en culture. 79.
CHAUCHARD, B., & CHAUCHARD, P. Pericaryone et chronaxie neuronique. 81.
_____, _____. Activite vitaminique B_2 et chronaxie. 82.
CAUSSE, R., & CHAVASSE, P. Sensibilisation auditive per stimulation binauriculaire discontinue. 84.
HAZARD, R., CHEYMOL, J., & QUINQUAUD, A. Empechement et inversion d'apnees toxiques, en hypothermie. 85.
CHAMORRO, A. Sur l'action androgene de la 17-ethinyl-testosterone (pregneninolone) 86.
_____. Action de l'ethinyl-testosterone sur la glande mammaire. 87-9.
LAPIQUE, M. Influence de la posture sur le reflexe chimique chez la grenouille. 89.
_____, L. Lois statistiques des elements nerveux en fonction du poids du corps chez les mammiferes. 90.
POLONOVSKI, M., SANTENOISE, D., & STANKOFF, E. Sur un mecanisme hormonal de regulation de l'affinite de l'hemoglobine du sang pour l'oxygene. 92.
COURRIER, R. Sur l'action vaginale de l' acetate de desoxycortixosterone et de quelques autres steroides. 94.
DELAUNAY, A. Inhibition du tactisme leucocytaire et toxines microbiennes. 96.
KOURILSKY, R., & MERCIER, P. Effet des facteurs de croissance specifiques du staphylocoque sur le pouvoir pathogene local de ce germe. 97.
HARVIER, P., & TURIAF, J. Dosages de l' hormone cortico-surrenale dans les urines des diabetiques. 98-100.
REGNIER, J., BAZIN, S., & PELLETIER, J. Action comparee des chlorhydrates de differentes bases anesthesiques locales sur les sols de resine mastic et d' alumine colloidale. 101.
_____, QUEVAUVILLER, A., & JEAN-BAPTISTE, J. Influence de l'acide qui salifie l' emetine sur la toxicite des sels de cet alcaloide vis-a-vis de quelques protistes, in vitro. 102-4.
LEVADITI, C., LESPAGNOL, A., & DECOISY, M. Activite comparee des serives sulfamides enantiomorphes. 104.
KOBOZIEFF, N., & SALOMON, L. Sur l'heredite de la tetradactylie des membres posterieurs chez le cobaye. 105-7.
LOISELEUR, J., & CROVISIER, C. L'activation de l'hydrogene par les rayons X. 107.
CHAMORRO, A. Secretion de substance androgene par l'ovaire de la souris normale, sous l'action d'extrait gonadotrope equin. 108.
_____. Absence d'action androgene de la progesterone avec les tests des Mammiferes. 110.
RAYMOND-HAMET. Action respiratoire d'un des digitaloides du venin du crapaud commun; la bufotaline pure de Wieland. 111.
HARVIER, P., & TURIAF, J. Elimination urinaire de l'hormone cortico-surrenale chez le chien apres injection de phloridzine et apres depancreatation. 112.

VALETTE, G. L'action favorisante des savons sur la toxicite de la strychnine pour l'epinoche. 114.
POLONOVSKI, M., SANTENOISE, D., & PELOU, A. Effet de la vagotonine sur la sensibilite du muscle eserine de sangsue a l'acetycholine. 115.
MOREL, A., ARLOING, F. /et al./ Desinfiltration et desinfection des cancers par injections intra-veineuses de sels complexes ferrico-sodiques d'acides cetoniques autres que l'acide dehydro-ascorbique; de l'acide alloxanique principalement. 117-9.
HERMANN, H., & JOURDAN, F. Tonus vaso-moteur peripherique et changements de position du corps. 120.
_____, _____. Deroulement du choc traumatique experimental chez le chien a moelle epiniere detruite. 122.
JOURDAN, F., LAPLAQUIERE, J., & MAITRE, P. Glycemie et choc traumatique experimental. 124.
PONTHUS, P., PALLOT, G. /et al./ Exploration radiographique du systeme lymphatique chez la grenouille; renseignements histologiques et physiologiques. 125.
_____, _____. /et al./ Application du procede radiographique d'etude des lymphatiques sus lymphatiques du mesentere et des sereuses chez la grenouille. 127.

C. rend. Soc. biol., 1943, 137: (Apr.)

BAUDOUIN, A., & CAUSSE, R. Influence des stimulations vestibulaires sur les ondes de l'encephalogramme chez l'homme. 195.
BENOIT, P. H., & BENOIT, M. Forme de la courbe de climalyse d'apres les theories de Monnier et de Hill. 196-8.
_____, & _____. Le seuil de climalyse, son interpretation dans la theorie de Monnier-Hill. 199.
FONTAINE, T., HUCHE, J., & BRETON, E. Sur le renforcement de l'inversion adrenalinique par les aminoacides. 201.
DARNASPEN, E., FLORIO, R., & VIDAL, P. Coefficient hemato-urinaire normal et pathologique chez le chien et le cheval. 202-4.
LECOQ, R., CHAUCHARD, P., & MAZOUE, H. Mise en evidence par la technique chronaximetrique d'un rachitisme invisible. 204.
CHAUCHARD, A., CHAUCHARD, B., & CHAUCHARD, P. Sur la chronaxie de constitution des neurones moteurs du cortex cerebral. 206.
_____, MAZOUE, H., & CHALOPIN, H. Les troubles neuromusculaires apres surrenalectomie chez le rat et leur determinisme. 207.
DELAUNAY, A. Tactisme leucocytaire et exotoxine staphylococcique. 209.
VARANGOT, J., CHAILLEY, H., & RIEUX, N. Sur la teneur du serum sanguin en vitamine E. 210.
HARVIER, P., & TURIAF, J. Variations dans le nyctemere de l'elimination urinaire de l'hormone cortico-surrenale chez les diabetiques. 211.
PESSARD, A., & SEGERS, M. Quelques caracteres differentiels des recepteurs cutanes de la grenouille. 212.
DUREL, P., & RATNER, V. Contribution a l' etude de la potentialisation toxique sulfapyridine-papaverine (phenomene de Glaubach) 214.
RAYNAUD, M., & LAROCHE, C. Etude sur le serum des malades presentant des oedemes de famine. 216-8.

GASTINEL, P., & PASQUELLE, R. Allergie et immunite apres introduction du virus vaccinal tue; de la valeur respective des tests d'epreuve cutanes et cerebraux. 218-20.

PIGOURY, L. Les serums precipitants prepares chez le lapin par injection de proteines musculaires sont-ils specifiques? 220.

———. Obtention, par epuration des anticorps, de serums precipitant les proteines musculaires crues ayant une specificite absolue. 221.

ANCEL, P., & VINTEMBERGER, P. Sur le determinisme de la symetrie bilaterale dans l'oeuf des Batraciens; par quel mecanisme les variations du degre hydrotimetrique modifient-elles la puissance de la rotation d'orientation en tant que facteur de symetrisation? 223.

VELU, H., SOULIE, P., & BELLOCQ, B. Infection latente du poumon par Bacillus anthracis; sa duree, ses risques. 224.

MEITES, M. Action de l'eau benzinee sur la cellule vegetale; application de la delipidation benzenique a la technique mitochondriale de Regaud. 225.

AUBERTIN, E., LACOSTE, A., & SARIC, R. Les effets immediats et a longue echeance provoques, chez le chien, par l'exclusion de la glande pancreatique. 227-9.

LACOSTE, A., AUBERTIN, E., & SARIC, R. Remarques sur la dissociation histologique et fonctionnelle experimentale des glandes pancreatiques exocrine et endocrine chez le chien. 229.

FAURE, M. Action de l'ether sur les hematies; l'extraction des lipides par un exces d'ether. 231.

DANGEARD, P. Sur la membrane des noyaux dans les cellules epidermiques des ecailles bulbaires d'Allium cepa. 233-5.

DUSSEAU, A., & FARDY, A. Comportement cytogenetique de l'hybride interspecifique Nicotiana rustica L. var. Zlag (n=24) N.paniculata L. (n=12), hautement sterile, transforme en hybride amphidiploide fertile apres traitement la colchicine. 235.

DEVAUX, H. La theorie electrique de la mitose. 237.

TAYEAU, F. Destruction des cenapses cholestero-proteidiques du serum sanguin par les sels biliaires. 239.

TAYEAU, F. Le systeme lipidoproteidique du serum sanguin chez les malades atteints d'ictere par retention. 240.

BIERRY, H., & GOUZON, B. Action pharmacodynamique d'une curarine douee de fluorescence. 242.

ROCHE, J., LAROMIGUIERE, S. DE, & LAURENS, A. Sur la differenciation des phosphateses alcalines (phosphomonoesterases et pyrophosphatases) des divers organes animaux. 243.

———, & BAUDOIN, J. Sur la phosphatase du foie active au pH optimum =5,5. 245-7.

ROCHE, J., & BAUDOIN, J. Sur la phosphatase du foie active au pH optimum=5,5. 245-7.

POURSINES, Y., & DARDENNE, P. Les lesions du systeme nerveux central au cours de la trypanosomiase evansi experimentale (souche syrienne) chez le rat, le cobaye, le chien et le cheval. 247-9.

ROMIEU, M., & JULLIEN, G. Sur l'existence d'hemorragies capillaires et de phenomenes d'hemocrinie dans la glande pineale du nouveau-ne. 249.

GINESTE, P. J. Recherches sur le pigment noir du foie des amphibiens. 251.

NIHOUS, M. Developpement experimental des bourgeons de Syringa vulgaris (lilas) 253.

BRETON, A. Cuti-reactions a la tuberculine sur papules intradermiques de 2339 RP antihistaminique de synthese. 254.

PAGET, M., & VITTU, C. Sur une nouvelle phase du phenomene glycolytique. 254.

DRIESSENS, J. Diminution du taux de l'hormone cortico-surrenale dans le cortex surrenal du cobaye portement refrigere. 255.

LAMBRET, O., & DRIESSENS, J. Variations de la pression arterielle au cours du choc traumatique experimental chez le chien en etat de denutrition. 256.

C. rend. Soc. biol., 1943, 137:

COMBEMALE, P., LEGRAND, R., & DESRUELLES, J. Effets cardio-vasculaires des injections de teinture de Crataegus chez le chien. 515.

DEFRETIN, R. Conservation de Hareis vivantes en glaciere; influence des temperatures basses sur les manifestations de l'epitoquie. 516.

GINESTE, P. J., COUPAIN, J., & DERUDDER, A. Action de l'acetate de desoxycorticosterone sur la structure histologique des organes du Triton. 518.

———. Sur quelques reactions des melanocytes de l'ecaille isolee du poisson. 519.

LESPAGNOL, A., MERVILLE, R., & WERQUIN. Methode de dosage de l'arsenic dans les liquides biologiques. 520.

BOULANGER, P. Sur la caracterisation de l'acide d(—) glutamique au moyen de la d-acidaminodehydrase. 521.

BALANSARD, J., & PELLISSIER, F. Les saponines de Quillaya et Polygala agents de proliferation cellulaire. 523-5.

BIERRY, H., & GOUZON, B. Sur quelques proprietes d'un alcaloide extrait de divers echantillons de curare. 525.

BIERRY, H., & GOUZON, B. Recherches sur l'intoxication curarique et l'action de quelques antidotes. 526.

DAVID, R. Sur les hormones de reproduction de Sinapis alba. 528.

FRICKER, J. La notion du polygone de frequence en bacteriologie. 529.

HUSSET-BIERRY, M. Presence de sucre combine dans le lait de femme. 530.

ROCHE, J., & DELTOUR, G. H. Calcification in vitro et modifications experimentales de l'affinite de l'os pour les ions $PO_4^{\equiv}$ et Ca^{++}.

———, MICHEL, R., & MOUTTE, M. Teneur en phenylalanine et specificite des pigments respiratoires. 532.

ROUX, H., & ROCHE, C. Existence d'un second point anguleux sur la courbe d'adaptation retinienne. 533.

VILTER, V. Metamorphose des larves d'anguille dans ses rapports avec l'activite hypophysaire. 534.

CORNIL, L., POURSINES, Y., & MOUSTARDIER, G. Sur les lesions histologiques de la peste experimentale du cobaye et du rat blanc. 536.

DAVID, R. A propos de l'hypothese des hormones de floraison. 537.

DUMAZERT, C., & MARQUET, J. Sur la degradation biologique de la glucosamine. 538.

MORIN, G. Sur la thermogenese de rechauffement chez le chien en la presence et en l'absence des secretions medullo-surrenale et thyroidienne. 539.

POURSINES, Y., GALLAIS, P., & RANQUE, J. La myocardite experimentale diphterique du cobaye; etude electrocardiographique. 540.

ROCHE, J., THOAI, NGUYEN-VAN, & MILHAU, O. Action couplee de la cysteine et de l' ion ferreux sur les phosphatases. 541-3.

_____, & VIALATTE, G. Action des proteinases et groupements guanidiques combines des proteines. 543.

DELL, P., & METZ, P. Sur les effets intestino-inhibiteurs de l'excitation conjuguee des deux nerfs splanchniques. 545-7.

HERMANN, H., BAILLY, B., & MISSENARD, A. Les variations de l'excitabilite reflexe des centres respiratoires au cours de la syncope anoxhemique. 547.

JOURDAN, F., & MARDUEL, H. A propos de l' experience de Tarchanoff et Puelma. 549.

MARCEAU, F. Reflexes vaso-moteurs accomplis en dehors de l'intervention des centres bulbo-medullaires chez le grenouille. 550-2.

_____. Action de la cocaine sur le coeur de grenouille, effectuee par l'intermediaire necessaire du sinus veineux. 552-4.

MERIEUX, C., & GORET, P. Sur l'absence de toxicite du serum bovin formole et tyndallise. 554.

REINBERG, A. Influence des excitations mecaniques rythmees sur le ventricule du myocarde des Helix. 555.

EDEL, V. Erythroblastose au cours de l' aviteminose C subaigue. 557.

HERMANN, H., JOURDAN, F. /et al./ La respiration au cours du choc traumatique experimental. 558.

JOURDAN, F., & CHATONNET, J. La medication-antihistaminique dans le choc traumatique experimental. 559.

BONNET, V., & MARDUEL, H. Eserine et arret du coeur par le pneumogastrique. 561.

MARDUEL, H. Action du vague sur le coeur de la grenouille a diverses temperatures. 562.

MORENAS, L. Les reactions d'allergie cutanee dans la distomatose humaine a Fasciola hepatica; cuti et intra-dermo-reaction. 563-5.

MOURIQUAND, G., COISNARD, J., & EDEL, V. Sur le pouvoir antiberiberique des differents pains suivant le taux d'extraction des farines. 565.

_____, & _____. Pouvoir protecteur des differents pains contre un regime totalement carence en vitamine B complexe. 566.

FABRE, R., & ROUGIER, G. Sur la nature des troubles consecutifs a l'anoxemie chez l'homme. 567-9.

GAVAUDAN, P., GAVAUDAN, H., & POUSSEL, H. Activite mito-inhibitrice de la plupart des fonctions dans la serie aromatique opposee a l'activite pratiquement nulle ou reduite de la fonction carboxyle. 570.

GAVAUDAN, P. Analogie de la reaction tropocinetique provoquee dans le meristeme radiculaire de ble par l'ether ethylique et les substances mito-inhibitrices de la serie aromatique, rapport avec la narcose. 571-3.

VELU, H., GAVAUDAN, P., & SOULIE, P. Etude histologique et pathogenie du charbon pulmonaire experimental. 573.

TUCHMANN-DUPLESSIS, H. Interpretation physiologique de diverses images cytologiques de l'hypophyse. 575.

9. Cardiovascular System

Am. Heart J., 1945, 29: (Mar.)

ROSENBAUM, F. F., HECHT, H. H. /et al./ The potential variations of the thorax and the esophagus in anomalous atrioventricular excitation (Wolff-Parkinson-White syndrome) 281-326.
